

Siddhi Green Excellence
PRIVATE LIMITED

COMPANY PROFILE

Environmental Excellence, Engineered for Industry.

"We are not Entrepreneurs, we are Enviropreneurs."

25+ Years

of Environmental & EHS expertise

Ankleshwar, Gujarat

India · est. serving industry

NABL · ISO 17025

Accredited testing laboratory

WHO WE ARE

Enviropreneurs serving industry for 25+ years

Siddhi Green Excellence Pvt. Ltd. (formerly Siddhi Consultants) is an integrated environment, health and safety partner headquartered in Ankleshwar, at the heart of Gujarat's industrial belt. We help organisations stay compliant, reduce environmental risk, improve operational performance, and prepare confidently for audits, approvals and sustainability reporting.

Integrated EHS

Environmental management, industrial safety and occupational health under one roof.

NABL Testing Lab

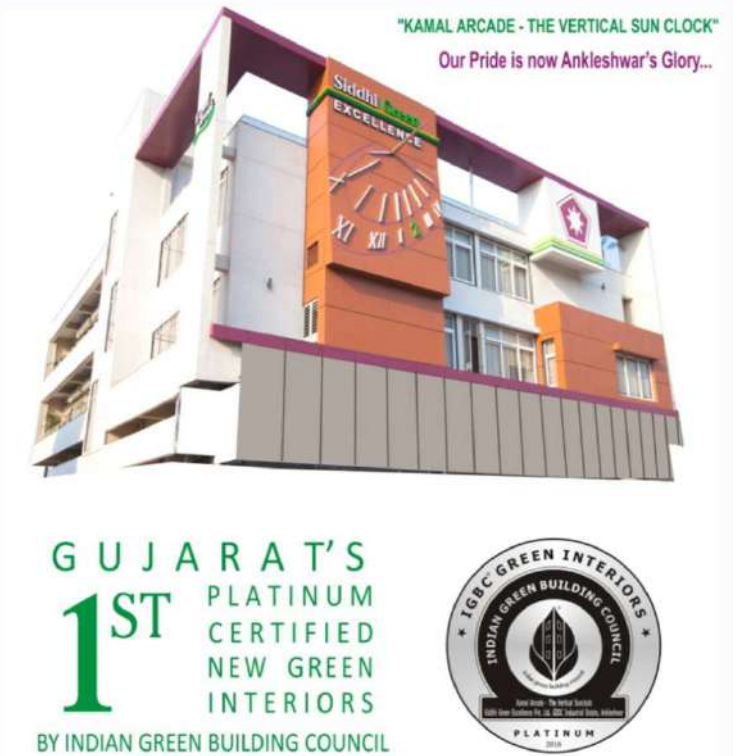

Accredited analytical laboratory for water, pharma, food and environmental samples.

Compliance & ESG

From statutory approvals to carbon footprint, LCA and sustainability reporting.

Green by example

Self-sustained solar power and a platinum-rated green corporate building.

BY THE NUMBERS

A track record measured in trust

400+

HAPPY CLIENTS

1,500+

PROJECTS COMPLETED

25+

YEARS IN BUSINESS

60+

ENERGETIC TEAM

Serving specialty chemicals, pharmaceuticals, food, agrochemicals and personal-care industries across Gujarat and beyond.

OUR PRESENCE

At the centre of Gujarat's industrial hub

Located in the Ankleshwar–Dahej–Vadodara corridor, we are minutes away from the industrial clusters we serve — enabling fast response, door-step sample pickup and on-site support.

HEAD OFFICE

Ankleshwar

Kamal Arcade — The Vertical Sunclock,
Comm. Plot No. C-3/3, Nr. SBI
Industrial Branch, GIDC Station Road,
Ankleshwar – 393 002, Bharuch,
Gujarat

BRANCH OFFICE

Dahej

Sanskar Avenue, Shop No. GF-37, P.O.
Jolva, Tal. Vagra, Bharuch, Gujarat

BRANCH OFFICE

Vadodara

601, 73 East Avenue, Bhailal Amin
Marg, Sarabhai Campus, Genda Circle,
Vadodara – 390 023, Gujarat

INFRASTRUCTURE

A 17,000 sq. ft. green facility & modern laboratory

Our platinum-rated green head office houses a fully equipped chemical and microbiological laboratory with LIMS-based workflow, lab-scale effluent-treatability modules and advanced software for EIA studies.

FACILITY HIGHLIGHTS

- Chemical & microbiological testing facilities
- LIMS-based laboratory & quality management
- Lab-scale effluent treatability modules (ETP design)
- Advanced software & applications for EIA studies
- Door-step sample pickup across the industrial belt

WHAT WE DO

Our Service Domain

Analytical Testing Laboratory

- Water Testing
- Microbiological Testing of water, pharma materials, food & food items
- Microbiological Environment Monitoring (Air / Surface / Contact) for cleanrooms, laboratories, hospitals & food production facilities
- Pharmaceutical Material Testing (IP, USP, EP, BP, JP, CP)
- Water Purification System Validation as per USP/EP/JP
- Elemental Analysis including rare & trace metals
- Food & Food Items Testing — inorganic, organic, nutritional information
- Environmental Monitoring & Analysis

EHS Consultancy

- Sustainability Goals, Performance & Reporting
- Environmental Compliance Management
- Environmental Impact Assessment (EIA)
- Baseline Environmental Monitoring
- Industrial Safety Services & Safety Studies
- Testing & Certification Services

NABL-accredited testing you can trust

Water testing

Potable, process & waste water to national standards.

Microbiological testing

Water, pharma materials, food and cleanroom / environment monitoring.

Pharmaceutical material testing

IP, USP, EP, BP & JP; water-system validation per USP/EP/JP.

Elemental analysis

Including rare and trace metals.

Food & food-item testing

Inorganic, organic and nutritional analysis.

Environmental monitoring

Emissions, ambient air, noise and workplace analysis.

Accredited to ISO/IEC 17025 · FDCA-approved public testing laboratory

WHAT WE DO

EHS Services

01

Environmental Management

Regulatory compliance, statutory approvals, EMS audits, ESG & carbon reporting, treatability studies and sustainability solutions.

02

Industrial Safety

Safety studies and audits — HAZOP, HAZAN, PHA, HIRA — risk assessment, safety documentation and emergency preparedness.

03

Occupational Health

Workplace and hygiene monitoring, illumination and noise studies, and health-focused environmental assessments.

Expert EHS advisory & compliance

Helping organisations stay compliant, reduce environmental risk and prepare confidently for audits, approvals and reporting.

Compliance & Approvals

- Techno-legal regulatory compliance guidance
- Prior Environmental Clearance & CTE/CTO renewals
- Statutory inspection & gap-closure support
- EMS adequacy audits against CC&A, CTE & EC

Reporting & Advisory

- Six-monthly EC compliance, BRSR & ESG reports
- Regulatory framework mapping
- Treatability studies for wastewater
- Eco-friendly & cleaner fuel evaluation

Operations & Optimisation

- ETP/STP troubleshooting & performance improvement
- Water audits – reuse, recycling, zero discharge
- Workplace particulate & chemical monitoring
- Hazardous waste categorisation & disposal

From carbon footprint to green solutions

End-to-end support across your sustainability journey — measurable outcomes, credible reporting and on-ground green infrastructure.

GHG & Carbon Footprint

Scope 1, 2 & 3 inventories; product carbon footprint to ISO 14067, GHG Protocol & PAS 2050.

Life Cycle Assessment (LCA)

Cradle-to-use impact evaluation per ISO 14040 & ISO 14044.

Environmental Due Diligence

Phase I, II & III site assessments, compliance verification & liability assessment.

ESG & Sustainability Reporting

Reports aligned to GRI, BRSR and leading ESG frameworks.

KEY SOLUTIONS FOR SUSTAINABILITY

- Zero Liquid Discharge (ZLD) solutions
- Rainwater harvesting systems
- Rooftop & surface solar power solutions
- Greenbelt planning for carbon sequestration
- Greenbelt mapping & tree-census surveillance
- Water audits & waste minimisation

CREDENTIALS

Accredited, recognised & certified

NABL

Accredited Testing Laboratory —

INDUSTRY SECTORS

Trusted across the process industries

From molecule to market, we support the industries that power Gujarat's manufacturing economy.

Specialty Chemicals

**Pharmaceuticals &
Healthcare**

Flavours & Fragrances

Home & Personal Care

**Agrochemicals &
Intermediates**

Food & Food Products

**Architectural &
Performance Materials**

**Surfactants & Advanced
Sciences**

LEADERSHIP

Founders with a vision for change

Mr. Purvesh M. Shah

Founder, Managing Director & CEO

- Chemical Engineer & Chartered Engineer
- Govt.-approved Valuer; Competent Person (GFR 1963)
- NABET-approved Category A Functional Area Expert
- Certified Internal Auditor for ISO 17025

Leads business development and technical guidance across all environment and safety assignments — driven to create opportunities for the youth of towns and villages.

Mrs. Kuntal P. Shah

Founder, Director & COO

- Chemical Engineer (Gold Medalist)
- NABET Functional Area Expert — Air Quality & Risk/Hazard
- Certified Internal Auditor for ISO 17025
- Faculty, SGE Training Centre

The think-tank behind the company's systems and quality processes — championing automation, laboratory excellence and women in industry.

OUR CLIENTS

Trusted by industry leaders

A partial list of the organisations we are proud to serve across sectors.

● Godrej Industries Ltd.	● Saint-Gobain India Ltd.	● Galaxy Surfactants Ltd.
● Croda India Company Pvt. Ltd.	● Dorf-Ketal Chemicals India Ltd.	● FMC India Pvt. Ltd.
● Troikaa Pharmachem Pvt. Ltd.	● Neogen Chemicals Ltd.	● Bharat Rasayan Ltd.
● Shiva Pharmachem Ltd.	● UPL Ltd.	● BVC Specialities Pvt. Ltd.
● Avantor Performance Materials	● Agro Tech Foods Pvt. Ltd.	● ICPA Health Products Ltd.
● Valiant Advanced Sciences	● Eskay Iodine Pvt. Ltd.	● Ginni Filaments Ltd.

...and many more across specialty chemicals, pharma, food and personal-care industries.

Policies

A governance framework built on certified standards and ethical business conduct.

Quality Policy

ISO 9001:2015 certified organization

Laboratory Quality Policy

ISO 17025:2017 certified laboratory

Health, Safety & Environment

ISO 45001:2018 certified (HSE) policy

Confidentiality & Impartiality

Employee NDA & impartiality agreement

Anti-Bribery & Anti-Corruption

ABAC compliance framework

Infrastructure & Technical Support system

End-to-end testing, treatment and assessment capabilities backed by field logistics.

Comprehensive testing

All environmental sample types — water, effluents, emissions, ambient air, soil, sludge, fuel, noise, workplace environment & illumination.

Effluent treatment modules

Lab-scale treatability studies: flocculation & coagulation (primary), aeration (secondary), and activated-carbon & sand-filter beds (tertiary). ETP sizing & hydraulics derived from the results.

EIA modeling & software

Advanced applications for EIA studies — air-pollutant dispersion, meteorological data, fugitive-emission estimation, noise modeling, contour maps, GIS for LULC & risk assessment.

Door-step sample pickup

Dedicated sample collection across Dahej, Jhagadia, Ankleshwar, Panoli & Vadodara.

Knowledge Enclave — building a safety culture

Empowering your workforce with practical, industry-relevant safety and compliance skills through our dedicated training centre.

For Managers & Supervisors

EHS rules, audits & documentation

- Risk studies: HAZOP, HAZAN, PHA, HIRA
- Accident investigation & analysis
- Safety culture & behaviour-based safety

For Workers & Operators

Electrical safety, LOTO & bonding

- Fire prevention & incident reporting
- Work-permit system & gas-cylinder safety
- Chemical handling, GHS & PPE

For Emergency Response

Mock drills & emergency preparedness

- First-aid, CPR/AED & SCBA operation
- Confined-space rescue & firefighting
- Spill response & evacuation

RECOGNITION

We practise what we preach

FEATURED

'Leaders of Change'

Featured in the special 15th August 2021 edition of The Times of India, recognising our contribution to environmental change.

Self-sustained on solar power

"We not only recommend, but also apply." SGEPL meets its own power needs through rooftop solar installations at the Ankleshwar office and Dahej plot — backed by a platinum-rated green building.
